Re: Designation of Signature Authority

Dear Linda:

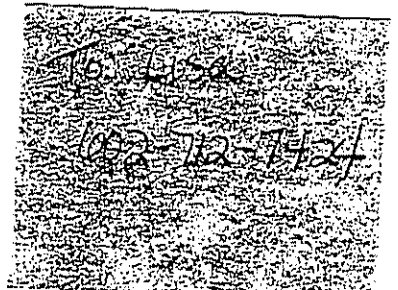

I certify the enclosed designations pursuant to Board Policy 3-102 (Financial Document Signature Authority), 3-103 (Contracting Signature Authority) and 3-301 (Investment and Safety Deposit Signature Authority). I understand that until now The University of Arizona has designated particular individuals as holding signature authority rather than incumbents of official University positions. With this designation I would like to change that procedure so that the incumbents for the named University of Arizona positions have the delegated authority, irrespective of the person occupying the position.

In each designation, after the identification of the University title to which I have delegated authority, I have listed the name of the current incumbent. However, this is for convenience only. As I indicated, I believe it is appropriate that the positions, rather than the individuals, be designated.

Sincerely,

Peter Likins,
President
